

## **Dave Morgans Northern Territory Report 2010**

G'Day Phil,

Here are a few photo's from Groote Eylandt, N.T. The one on the wharf is where I work, loading ships with Manganese. This photo was taken prior to rebuild, I've been up here 7 years with about the same to go. It's a great place to live and work. Bloody good weather and the best fishing in the world. One major drawback is, apart from a few suburban roads, there is a Highway which is 18 klms long with one corner and no hills. For a very small place we have 6 Harley's ,4 BSAs. Velocette, Ducati, Triumph, And a 41 Scout." in a box". I'm looking forward to getting my bike on the mainland and riding on a decent road, then joining a few of you on the N.Z trip. Hope you have saved me a spot. Cheers Dave.Morgan.
